

Eli SAUVAGE

Looking for a 6-month engineering internship in **early 2025**

UTT | Networks and Telecommunication

I am an engineering student at the University of Technologies of Troyes (UTT), in my last year.

Passionate about computers and programming since high school, I specialized in Networks and Telecommunications with the goal of extending my skill set in computer science.

Systems & web programming
Docker & Kubernetes
CI/CD (GitLab/Github)
Network configuration and security

French:
Mother tongue
English :
Fluent – C1 level
Spanish :
Intermediate – B2 level

Boulder and route climbing for 10 years
Sailboat at Le Havre since high school
Bicycle and running

My First Internship

French **Ministry of Armed Forces** - Aug. 2023 to Feb. 2024

Development of a network analysis web app (resembling Wireshark)

- Architecture micro-service avec Docker
- Front-end: Angular
- Back-end: Rust, Kafka, Django, MySQL
- Deployment of a CI/CD pipeline on GitLab

**MINISTÈRE
DES ARMÉES**

*Liberté
Égalité
Fraternité*

School curriculum

UTT (University of Technologies of Troyes) - 2020 to 2025

Google Project Management certificate : 2024

Cisco CCNA Certification : 2023

High school : J. Siegfried, Le Havre

Scientific Baccalauréat (engineering science): 2020

My Skill Set

Engineering training

- Network infrastructure
- Cloud computing
- Network security
- Cryptography basics

Web Programming and Computer Science

In the context of my personal, associative and school projects

My portfolio : eli-sauvage.github.io

Portfolio

Associative Experiences

CIO at Junior Conseil UTT (school club) - 2021 to 2023

School club allowing students to perform professionalizing missions.

Update and creation of new digital tools, setup of solutions responding to the member needs..
